SUMMARY

Hello and welcome! My name is Md Rehan, and I am a student at the Institute Of Engineering And Management (IEM) and a computer enthusiast. I am from Kolkata and attended St. Augustine Day School for my education. I am passionate about coding and developing applications in a variety of languages and technologies. I enjoy being a part of a team project and want to contribute as much as I can to make it better. Aside from that, I am a student who appreciates math and problem solving.

EXPERIENCE

Freelancer

Samaira Fashion

📅 04/2024 - 05/2024 📍 Kolkata, West Bengal, India

Samaira Fashion is an E-commerce platform built using the powers of React JS, Express JS and Mongo DB. From designing the UI to building its backend and deploying it in VPS hosting, everything was done by me.

The URL to visit Samaira Fashion is:

<https://samairafashion.com>

MY PROJECTS

Byte Nexus

Byte Nexus is a social blog application that allows users to create, share, and interact with blog posts. Built using modern web technologies, Byte Nexus aims to provide a seamless and engaging experience for users. It is built using MERN stack.

<https://github.com/mdrehan369/ByteNexus>

Pixellytic

Pixellytic is an application made from Python and its GUI libraries. The front end is done by Customtkinter, a modern version of Tkinter developed by Tom Schimansky. You can find its repo in Git Hub. It uses a library Scikit Learn famous for machine learning and uses it to distinguish images.

<https://github.com/mdrehan369/Pixellytic>

Graphify

Graphify is a simple tool for visualizing and analyzing information for applications such as Machine Learning and Deep Learning.

<https://github.com/mdrehan369/Graphify>

Chirp

Chirp was born out of a simple idea: to create a space where everyone can express themselves freely and authentically. In a world where information flows faster than ever, we wanted to design a platform that not only keeps up with the pace but also adds value to your social media experience. Whether it's breaking news, viral trends, or heartfelt moments, Chirp is here to keep you in the loop. It is built using Django

<https://github.com/mdrehan369/Chirp>

SKILLS

React JS	Express JS	Django	
JQuery	HTML	CSS	Node JS
SQL	Tailwind CSS	Javascript	
Python	Docker	Machine Learning	
Git	MongoDB	Sk Learn	Java
C/C++	MySql	Pandas	

EDUCATION

BTECH in Information Technology

Institute of Engineering & Management,
Saltlake Campus

📅 2022 - 2026 📍 Kolkata, West Bengal, India

PASSIONS

Cricket

Cooking

Maths Solving
